Calgary's Best Virus Removal and  
Computer Repair Shop

Call 403-483-0105

### REMOVING VIRUSES, SPEEDING UP AND RESTORING YOUR COMPUTER TO AN ORIGINAL "LIKE NEW" CONDITION IS AS EASY AS 1, 2, 3 ...

1. The Most Thorough Virus Removal and Optimization in the Industry
2. The Most Detailed Solution Without Removing Programs, Photos, Music and Business Data
3. Lowest Fixed Rate Solution in Calgary

#### HERE IS WHAT SOME OF OUR CLIENTS ARE SAYING:

"Not only were the viruses gone, my computer was like new and so fast!"  
James Eliot, residential client

"Ducktoes did more than any other tech ever. And no more viruses for over a year. Val Mathiessen, owner, Approach Learning

"Instead of reformatting as another virus shop did, Ducktoes removed the viruses and really sped up my computer." Jane Jefferis, residential client

#### Who Needs this Service?

Anyone with a slow computer, infected computer, or computer with unresolved problems.

Call 403-483-0105

- 1. Our Dedicated Virus Lab Allows One Person To Scan 5 Computers Simultaneously Which Means Lower Costs Even With The Most In-Depth Analysis In The Industry...** Don't be fooled, one or two hours is not enough to fix viruses or optimize a computer. For true speed up and effective virus removal, we bring the computer to the lab, because the processes and scans take hours. For one hour with our competitors, you get a day's worth with us. We also remove bloatware and unnecessary startup programs, repair registry and hard drive errors, and other Windows tweaks that will make your computer faster.

This includes: **FREE PICK UP AND DELIVERY**

- 2. While Our Competitors Remove All Your Data, We Remove All Your Viruses!** Our competitors treat all computer problems alike...they erase everything on your computer, losing your photos and business files and leaving you to re-install all of your programs – some of which you don't even have anymore.

Because we perform the most in-depth assessment in the industry we are able to find 100% of the viruses that are affecting your computer and 98% of the time we don't have to reformat to remove them.

**And Prevent Their Return...GUARANTEED!**

- 3. Lowest "Fixed" Rates in Calgary**  
Reformatting your hard drive takes about 3 to 4 hours per computer when done individually. The average computer repair company charges \$240 to remove a virus on one computer. **You then need to consider your time to re-install your programs.**

**Save Anywhere From \$80 to \$160.** In our lab one tech can fix five computers at the same time, so we can afford to charge less and still make a profit. A win/win solution.

**THE BEST VIRUS REMOVAL AND COMPUTER REPAIR SHOP IN CANADA!**
